

AIQuinta

Build Your
Digital Workforce

Your Data. Your AI.

Always Secure - Always Ready

Reduce rework, delays, and repetitive tasks by up to 60%
— with AI Agents woven into your everyday tools.

1. Are teams spending hours re-checking documents, spreadsheets, or records across systems?
2. Are customers or employees waiting while people chase answers across departments?
3. Are KPIs dropping because issues aren't flagged before they escalate?

In just 60 seconds, see how AIQuinta transforms your operations.

Empower Your Enterprise with Autonomous AI Specialists

! Your issues:

Knowledge scattered across policies/SOPs/emails/tools.

Heavy training burden; reliance on a few senior people.

Rework & SLA breaches from missed details, slow handling.

Inconsistent processes/data across systems.

Our solutions:

Structured Knowledge Base: One searchable source of truth.

Knowledge Retention: Capture expert know-how; answers in-flow.

Predictive & Troubleshooting: Early alerts; guided fixes.

Multi-Agent Platform: Connect ERP/CRM/ITSM, data stores, email/chat, BI.

Example Use Case

Automating Knowledge Access with [AIQuinta](#)

Audit & Compliance Agent

Compliance Checker	Validate actions against standards.
Approval Flows	Route requests to the right approvers.
Shift Handover	Auto-generate shift reports and summaries.

Troubleshooting Agent

Alarm Navigator	Suggest root causes with probability scores.
Defect Analyzer	Detect recurring patterns, link to solutions.
Status Update	Auto-collect status from systems and notify.

Operational Agent

Smart Search	Instant manual lookup by error or keyword.
Context Guidance	Show right instructions based on tool state.
Revision Control	Highlight manual changes, prevent outdated use.

Planning & Forecast Agent

What-If Simulator	Model demand or capacity changes.
Shift Planner	Optimize resource allocation and schedules.
Cost Forecaster	Estimate impact of disruptions or delays.

Make your Enterprise move faster

AIQ.uinta

Let's Simplify Our AIQ.uinta

Platform Features

1. Role-Specific AI Agents

Tailored to real workflows: finance, HR, customer service, operations, IT, compliance, and more.

2. Enterprise Orchestration

Coordinate multiple agents to deliver end-to-end outcomes across departments.

3. Domain-Specific Knowledge Base

Ingest SOPs, policies, contracts, FAQs, tickets, and training manuals for tailored expertise.

The playbook that
never resigns.
Capture **once**,
execute **forever**.

4. Enterprise-wide Data Integration

Connect to ERP/CRM/ITSM, databases, file drives, email, chat, and APIs—securely.

5. Governed Ownership & Security

You retain full IP and data control with on-prem or cloud deployment, encryption, and audit trails.

6. Continuous Learning

Agents learn from outcomes and feedback loops to keep getting better.
